

St Catherines Downs 17/09/23 Results & Planners Report.

Living in Chale Green made it easy for me to survey the area over a couple of leisurely visits. This was the first time I'd planned on my own & wanted to make sure the control sites were correct, so used some obvious features. Chris had updated the map but there were no major changes. Unfortunately on the day of the event the weather was horrendous & the turnout was disappointingly low. I stood with Gareth for 3hrs in the wind, rain, lightning, thunder & sea mist while the 15 competitors braved the elements out on the course. All went out with control cards but came back with soggy tissue paper!!!. It took three days for them to dry out & even then very difficult to decipher but with the help of Peter we've cobbled together what we think as a fair result, but sorry for the delay.
